About Georgia

Georgia is a sovereign state in the Caucasus region of Eurasia. Located at the crossroads of Western Asia and Eastern Europe, it is bounded to the west by the Black Sea, to the north by Russia, to the south by Turkey and Armenia, and to the south east by Azerbaijan.

The capital and largest city is Tbilisi. Georgia covers a territory of 69,700 square kilometers, and its 2016 population is about 3.72 million.

Georgia is a unitary, semi-presidential republic, with the government elected through a representative democracy.

Ethnic Georgians call themselves Kartvelebi, their land Sakartvelo meaning "A Land of Kartvelians" and their language Kartuli.

The climate of Georgia is extremely diverse, considering the nation's small size. There are two main climatic zones, roughly corresponding to the eastern and western parts of the country.

The Greater Caucasus Mountain Range plays an important role in moderating Georgia's climate and protects the nation from the penetration of colder air masses from the north.

The Lesser Caucasus Mountains partially protect the region from the influence of dry and hot air masses from the south.

Brief about Georgia:

Country Name: – Georgia

Currency: – 1 Georgian 'Lari' = 25.61 INR

Indian Restaurants: – Available

Indian Restaurant: Available

Climate: – -4°C – 30°C

International Airport location: – Tbilisi International Airport

Capital: – Tbilisi

First and Second Language: – Georgia and English

Indian Mess: – Yes

Travel Time: – 8 – 12 Hrs

Course Duration: - 5.8 Years

About Tbilisi

Tbilisi, formerly known as Tiflis, is the capital and the largest city of Georgia, lying on the banks of the Mtkvari River with a population of roughly 1.5 million inhabitants.

Located on the southeastern edge of Europe, Tbilisi's proximity to lucrative east-west trade routes often made the city a point of contention between various rival empires throughout history and the city's location to this day ensures its position as an important transit route for global energy and trade projects.

To the north, Tbilisi is bounded by the Saguramo range, to the east and south-east by the Iori plain, to the south and west by various endings (sub-ranges) of the Trialeti range.

The city rises in terraces from both banks of the river Mtkvari, which is the main hydrological artery of the city. Attitude of the river bottom within the city is 200m above the sea level.

Climate Average annual temperature in the city is 14.5 degrees Celsius.

The climate of Tbilisi is transitional from humid subtropical to relatively mild continental. Average annual temperature in Tbilisi is 12,7°C. January is the coldest month with an average temperature of 0,9°C.

The warmest month is July with an average temperature of 24°C and max 40°C. April and May are wet with frequent sudden heavy downpours. The climate of Tbilisi is healthy and useful.

About University

Grigol Robakidze University (GRU) - is a private higher education institution in Georgia. It is located in Tbilisi, Georgia and was established in 1992., it is one of the best educational centers in Georgia with well developed infrastructure.

The university was named in honour of Grigol Robakidze, who was a Georgian poet and thinker.

The Grigol Robakidze University is among the 5 higher educational institutions of Georgia In terms of student employment according to UNESCO International Institute of Education Management.

The Grigol Robakidze University uses modern technologies including case methods, modelling methods, master classes, projects, discussions, interactive and presentation methods of delivering lectures etc.

It provides highly qualified, dedicated and experienced professors and teachers and latest material-technical resources.

Grigol Robakidze University is officially recognized by several medical bodies given below:

Grigol Robakidze University was included in the list of acknowledged Foreign Medical Institutions by National Medical Commission.

Ministry of education and healthcare of Georgia.

Member of The World Directory of Medical Schools (World Federation for Medical Education (WFME)).

Foundation for Advancement of International Medical Education and Research (FAIMER)

The member of an International Association for Medical Education in Europe "AMEE"

Dear Applicants,

We are inviting you to our university one of the most interesting and human professions the profession of being a Medical Doctor.

Our medical school has considerable experience in training doctors for foreign countries and employs the best specialists of the Georgia.

Strong intellectual potential, close cooperation with leading medical institutions, the use of modern technologies and an individual approach to each student, ensure high quality of training and future, professional achievements of our graduates.

Training in our medical school is conducted inline with up-to-date standards, We are Offering'our students training programs, best fil for the needs of their home country or of places where they want to Practice medicine in the future.

We apply training techniques that make it possible for students to develop problem solving skills, learn how to get information independently and improve abilities to assess new information critically.

Hence you become student of our school, we want you to remember us and stay in touch.

Mr. Mamuka Tavkhelidze
Rector
Grigol Robakidze University

About MD Program

Grigol Robakidze University offers the Faculty of Medicine the English-speaking international quality Medical Degree (MD) program, the University has University Clinic, which is one of the best clinic in Western Georgia and we also actively collaborate with other leading clinics in the city too.

Grigol Robakidze University Faculty of Medicine is listed at WDOMS (WHO) and FAIMER (IMED) and it is member of AMEE

Educational Program involves 360 ECTS credits. One credit is equal to 25 academic hours and ends with final qualification exam,

Grigol Robakidze University, Medical Degree (MD) program are of 12 semester Duration in English medium of instruction.

All the international students pursuing MBBS will acquire theoretical and practical knowledge of general medicine for 5 years. At the end of the MBBS course, all the students must undergo 1 year of internship.

The medicine degree awarded at Grigol Robakidze University provides a wide range of employment opportunities all over the world.

The students willing to seek MBBS education must refer the table given below for better understanding the study pattern of Grigol Robakidze:

7). FOREX CARD	14). SERVICE CHARGES

FROM 2ND YEAR ONWARDS HOSTEL & MESS ARE OPTIONAL

Medical Council of India Screening Test, also known as Foreign Medical Graduates Examination (FMGE), is a licensure examination conducted by the National Board of Examinations (NBE) in India.

The test is one of the mandatory requirements for an Indian citizen who has a medical degree from a college outside India to practice medicine in the country.

The screening test was introduced in 2002 as a qualifying examination for Indian students obtaining their medical degrees from countries other than India, such as countries belonging to the former Soviet Union, Eastern European countries, China, Nepal, Philippines, and Caribbean countries. Indian doctors holding basic medical degrees from the above countries have to take the MCI screening test.

The Medical School should have been listed in the WHO international directory of Medical Schools (Now The World Directory of Medical Schools).

Candidates who qualify the Screening Test may apply to the National Medical Commission of India or to any Indian State Medical Council for provisional registration or permanent registration.

As we all knew that Indian Government has made the screening test compulsory for foreign medical students compulsory.

We also provide AFMGE Coaching online at Georgia and physical class at New Delhi with the most experienced Faculty.
